Six Major Product Systems | Category Overview

Integrated whole-home customization of doors, walls, cabinets, and flooring

Cabinet System

Wardrobes, kitchen cabinets, and open kitchens; ABA sandwich-core, curved, and 45° miter-cut handle techniques, available in multiple styles

Wall Panel System

Modular aluminum-frame panels with louver and skeletal-line detailing, soundproof and moisture-proof, delivering a seamless door-wall-cabinet integration

Interior Door System

LVL for warp resistance; hidden doors, offset-pivot doors, and finish-free/painted doors

Hardware System

Imported Salice and GRASS hardware; basic, functional, and smart hardware for durable, smooth open-close action

Flooring System

Engineered wood flooring, laminate flooring, and Taoyan stone floor tiles

Smart Lighting

Whole-home smart dual-color-temperature control with concealed wiring, combining task and ambient lighting

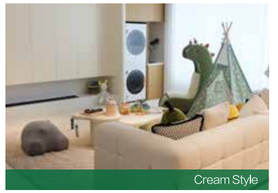

Space Renderings

Real Spaces Across Diverse Lifestyles

Covering flat residences, duplex villas, detached villas, and elderly-friendly renovation of older homes. Styles include modern minimalism, Italian style, Song-dynasty aesthetics, and cream style. Representative projects: Binjiang Fengxiu Yunting, Binjiang Wangzhou-fu, Song-style aesthetic spaces, and family suites.
